

VEHICLE RECORDER DRIVEPRO 250/64GB TS- DP250A-64G TRANSCEND

Model: TS-DP250A-64G

Manufacturer: TRANSCEND

EAN: 760557862130

Product Code: 822243

R3,823

DrivePro 250

Transcend's DrivePro 250 dashcam was designed with both style and safety in mind. The DrivePro 250 features a high-sensitivity image sensor to capture high-resolution videos with extremely fine tonal gradation even in low light. In addition, it features a GPS/GLONASS receiver, a built-in battery, a handy snapshot button, and Wi-Fi connectivity. More than just a safety device, Transcend's DrivePro 250 is a fellow traveler ready to explore more of the world with you.

High-sensitivity image sensor

The DrivePro 250 uses a high-sensitivity sensor to capture high-resolution images with superb, rich

color even in low light. Supporting 1440P 2K QHD recording at 60fps, the DrivePro 250 offers smooth footage as well as crisp still images.

A dash camera with all the right features

Transcend's DrivePro 250 dashcam is a feature-packed, advanced dash camera with its GPS/GLONASS receiver, built-in battery, handy snapshot button, and Wi-Fi connectivity. It comes bundled with a Transcend microSD memory card built of high-quality NAND flash and tested under harsh environmental conditions.

Wi-Fi connectivity

The DrivePro 250 features Wi-Fi connectivity that works with the exclusive DrivePro App to provide real-time footage playback and download. This means ease of access to video evidence for reporting incidents to law enforcement and insurance companies without the need to pull out the memory card.

GPS/GLONASS receiver

The DrivePro 250's GPS/GLONASS receiver can log coordinates, date, and time into recorded video footage. The coordinates precisely locate where an incident happened so that emergency road services, police, or an insurance representative can respond more quickly.

Built-in battery

In the event of a power outage, the built-in Li-Polymer battery can temporarily supply power to the DrivePro dashcam until the files being recorded are safely stored, so to prevent losing crucial images due to file damage.

Head-up display

Shows current speed and driver safety alerts, including LDWS, FCWS, headlight reminder, and driver fatigue alert.

Parking mode

Activates recording when motion is detected, even when you're away from your vehicle.

Lane Departure Warning System

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Prevents accidents by issuing a warning when the vehicle veers out of a lane.

Forward Collision Warning System

Warns the driver when the vehicle is getting too close to the car ahead.

Speed Alarm

Issues an onscreen alert with a warning sound whenever the vehicle's speed exceeds a preset value.

Emergency recording

Prevents overwriting of the file being recorded at the time when the G-sensor detects an impact.

Time-lapse recording

Takes you right to the heart of the matter without needing to view hours of incident-free video.

Headlight reminder

Automatically activates when the DrivePro detects poor lighting conditions.

Driver fatigue alert

Regularly reminds the driver to rest after driving for a self-defined period of time.

Wide Dynamic Range

Balances the light and dark areas of captured images, ensuring that every critical shot is as clear as possible.

Handy snapshot button

Allows you to take photos while recording a video. You can also remove the DrivePro from the vehicle to create a photographic record of collision damage.

Value-added software

Transcend offers free software, DrivePro Toolbox. Featuring video sorting function, smooth video playback, videos editing, screenshot, and map view for models with built-in GPS/GLONASS receivers, it creates more convenient experience for DrivePro users!

Transcend's DrivePro App is designed specifically for use with DrivePro dashcam models featuring
