The all-in-one water cooling system LQ240PRO is the ideal companion for gaming adventures with the highest performance requirements.

With a TDP of 300 watts, it is able to cool even very hot CPUs without performance loss. The assembly is simple and fast due to the quick-mounting system. All current CPUs from AMD and Intel are supported.

The design of the water cooler is kept in a noble, black metallic look.

The square pump head with a large, powerful copper cooling plate and discreet ARGB lighting fits perfectly into the picture and looks stylish. The elegantly sheathed, flexible black hoses can be comfortably routed in the housing in any mounting form.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The fans of the LQ240PRO are equipped with Fluid Dynamic Bearing technology (FDB) and ensure smooth operation despite heated gaming sessions.

Only a barely perceptible whisper of the cooling airflow is heard. The embossed logo of the fans emphasizes the metallic look and underlines the elegance of the water cooling.

Available as black 240mm version with ARGB illuminated pump head and 2x FDB fans.
