The new M704 is the first CPU cooler to widening the Performance A+ series. Just like the power supplies, this CPU cooler is completely black, with a red fan. The M704 has four equally black, extremely efficient heat pipes, which allow for a cooling capacity of up to 200W.

The red 120mm PWM fan completes the CPU cooler, which is especially appropriate for gaming systems with potent multicore processors. Thanks to the multi-socket design, the cooler can be applied on all current AMD and Intel sockets.

Included in the scope of delivery is – besides heatsink and 120mm PWM fan – mounting material for sockets LGA1700/1954/1151/1150/1155/1851/1156/1200 and AM4 / AM5 illustrated assembly instructions as well as a tube of thermal paste.

- silent, hydro bearing 120mm PWM-fan
