R1,008

Compact, aluminium card reader with standard USB connector for use with (micro) SD cards

Compact Travel Buddy

If you're a photographer or videographer who's always on the move looking to take the perfect picture or movie, you know you don't want to carry around big equipment. The Trust Dalyx Fast USB 3.0 Card Reader will be your go-to solution when backing up your visuals during trips.

It's Fast

The Dalyx uses a fast USB 3.2 (Gen 1) Type A connection, allowing you to quickly back up your work and continue your shoot. With compatible UHS-I cards, you'll copy your data with transfer speeds of up to 104MB/s. Secure your hard work quickly and continue doing what you love to do most: making stunning visuals.

Small and Strong

You'll always take the Trust Dalyx with you. It's so small, you won't even notice it's in your bag, while the die-cast aluminium housing protects the card reader from the dangers of outside world. It comes with a short USB cable that keeps both your bag and your desk clutter free, and because it works with both SD and micro SD cards, the Trust Dalyx is the perfect companion for any photographer, documentary maker or extreme sport enthusiast.
