Highly effective 2-way privacy filter protects the screen from scratches and damage and limits the field of view to+/- 30°. I.e. from an angle of approx. 30° the display appears black, so that your privacy and sensitive data are protected from unwanted side views, compliance with the General Data Protection Regulation (GDPR) is supported.

Thanks to the magnetic attachment, the Privacy Safe privacy filter can be attached and removed quickly and easily - without any annoying fastening clips. The neodymium magnets are 100% tested and safe to use on monitors. Laptop closing is also possible without removal.

Dual Surface Technology: the Privacy Safe privacy filter has 2 different turnable sides. The matt anti-reflective surface allows non-reflective, glare-free use (especially in bright light) and reduces annoying fingerprints. The other, glossy side provides a clearer view of the screen and maximum colour brilliance, especially indoors and in medium to dark light conditions.

The integrated bluelight filter reduces harmful short-wave blue light, providing eye relief and reducing the likelihood of blue light-related eye irritation and sleep disturbance.

Unrestricted touch sensitivity: The Privacy Safe privacy filter has no disruptive effect on the touch and scroll characteristics of the display. The display can be used without restriction - as if no privacy filter was in place. Pens/pencils are also supported [model-dependent].

Camera function is secured by a universal cut-out. Camera slider function is retained.

Incl. practical protective cover made of natural felt for safe storage and protected transport.
