Connect a DisplayPort-equipped PC to a VGA monitor/projector, with a 15ft long cable

The DP2VGAMM15B 15ft active DisplayPort to VGA converter cable lets you connect your DisplayPort-equipped desktop or laptop directly to a VGA monitor or projector at a longer distance than a standard-length cable would support, while saving the expense of additional adapters.

Plus, because the converter cable supports video resolutions up to 1920x1200 you can convert a DisplayPort video source to VGA without sacrificing video quality.

The DP2VGAMM15B is backed by a 3-year StarTech.com warranty and free lifetime technical support.
