R3,413

The sanding specialist for curved, profiled, and structured surfaces.

The sanding roller is perfect for sanding curved, profiled, and structured wooden or metallic surfaces. It reaches into inaccessible areas, sanding banisters, profiled skirting boards, garage doors and contoured furniture effortlessly. Electronic speed preselection and a wide range of accessories enable a variety of applications across several materials. It has Bosch SDS and Autolock for quick and easy accessory changes, a cylindrical handle with a soft grip for comfortable handling as well as a dust extraction hood to enable low-dust working.

Quick and easy sleeve changes

The Autolock system enables quick sanding sleeve changes by locking the spindle when the tool is

not in use, allowing the user to easily slide off the sleeve and replace it.

Reduced dust while sanding

A dust extraction hood restricts the widespread distribution of sanding dust. It can also be attached to a multipurpose vacuum for effective extraction while sanding.
