Model: LPS250

Manufacturer: LOGILINK

EAN: 4052792060577

Product Code: 824356

R1,151

Whether as an extension or as an option to be able to connect even more devices for example to a single wall oulet, LogiLink's power strip LPS250 enables you to do both. The 6 safety sockets are arranged at an angle of 45°, making it easier to plug in angled plugs. Each socket is individually switchable, as each socket has its own illuminated ON/OFF switch. An extra switch, which is also illuminated like the individual switches, ensures that the entire strip can be switched off quickly and easily, even in the dark. In addition, the LPS250 has overvoltage protection and sockets with safety shutter. With the multiple power strip from LogiLink you gain a practical helper for every room, because due to its cable length of 1.5m you now have even more freedom when placing your devices, whether it is at home or in the office.
