Official PlayStation®4 buttons included (PS, SHARE, OPTIONS): access the new social features by instantly switching between the game and the system, at any time

## T3PA – GT EDITION PEDAL SET

For this special GT EDITION, and even greater realism, the pack includes the T3PA – GT EDITION PEDAL SET, featuring three pedals and a 100% metal internal structure. Accelerator and clutch pedals are adjustable in height and spacing. The brake pedal has progressive resistance and comes with a Conical Rubber Brake Mod.

## Industrial-class brushless servomotor

Under the hood there’s nothing less than a genuine brushless industrial Force Feedback servomotor (with frictionless action), providing super-smooth and seamless Force Feedback. The motor’s silence allows you to completely focus on what matters – namely, premium performance on the road. Ultra-responsive and realistic Force effects, with no latency.

## New dual-belt system

The new 1080° dual-belt system delivers super-smooth and quiet Force Feedback with incredibly responsive, realistic Force effects: feel the road, not the wheel’s internal mechanism.

## H.E.A.R.T. HallEffect AccuRate Technology®

Thrustmaster’s development teams have added precision to the motor’s impressive capabilities by incorporating H.E.A.R.T HallEffect AccuRate Technology®, featuring a contactless magnetic sensor: this provides 16-bit resolution, for 65,536 values on the wheel’s steering.

## Thrustmaster Quick Release system

The Thrustmaster Quick Release system lets you quickly switch from one wheel to another – in just a few seconds. This innovative concept gives wheel base owners the option of purchasing separate detachable Thrustmaster wheels, for use with their existing base. Enjoy optimal realism in all types of races!
