R4,323

Connect to up to three external screens* with the 2-POWER? DP1.3 MST USB-C Triple Display Docking Station. | Make the most of your workspace by extending your desktop across three full HD screens* via a USB-C to USB-C Cable. The 2-POWER? DP1.3 MST USB-C Triple Display Docking Station adds triple-screen functionality to your workstation with 4K resolution (3840 x 2160p) on a single display, 2K (2560 x 1440p) dual display and HD (1920 x 1080p) across three displays. | With more screens at a higher resolution, the 2-POWER? DP1.3 MST USB-C Triple Display Docking Station enables you simultaneously access and manage multiple applications or programs at once, helping you to work more efficiently without the nuisance of minimising or switching between applications. | The compact and sleek design make this docking station makes it perfect for home and office, reducing cable and peripheral clutter on your desk or workstation. 100W PD charging ensures your device is fully charged when needed. | For all your USB peripherals, the 2-POWER? DP1.3 MST USB-C Triple Display Docking Station features four USB-A 3.0 ports, including one port that supports BC1.2 & Apple Charging (3 x USB-A 3.0 & 1 x USB-A 3.0 with BC 1.2 fast charging). There is a Gigabit Ethernet port for high-speed network connectivity, an audio/speaker port for your headset or mic
