

XTOOL S1 Raising Base

Model: P5010249

Manufacturer: XTOOL

EAN: 6928819520493

Product Code: 841741

R6,439

XTOOL S1 Height Extension Base

The XTOOL S1 Height Extension Base significantly increases the maximum workpiece height from 42 mm to 125 mm, allowing you to work with thick materials such as large wooden boxes or other bulky projects. This allows you to tackle more advanced tasks without the limitations of your workspace. The base is designed to work seamlessly with the machine's structure, ensuring a complete seal and eliminating the risk of laser light or smoke escaping during operation.

4-in-1 rotary engraving with an even wider range

When combined with the RA2 Pro rotary attachment, the base allows for engraving in four configurations: on cylindrical objects, mugs with handles, spheres, and jewelry and rings. The expanded working range allows for engraving items with diameters from 3 to 106 mm using the roller system (with the base) and up to 100 mm in the mug holder.

Safety and refined design

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The base’s design is engineered for safe and comfortable operation. It ensures complete sealing, preventing laser light from escaping, while effectively limiting the emission of smoke and fumes. The stable construction and increased working height of up to 125 mm allow for safe and precise processing of a variety of materials.

Manufacturer	xTool
Product code	P5010249
Compatibility	XTOOL S1
Maximum material height with base	125 mm
Rotary attachment support	Yes (RA2 Pro)
Engraving diameter range (roller system, with base)	3-106 mm
Engraving diameter range (cup holder, with base)	0-100 mm
