

Bosch PHO 2000 Black, Green 19500 RPM 680 W

Model: 06032A4100

Manufacturer: BOSCH

EAN: 3165140776059

Product Code: 842171

R2,823

Bosch PHO 2000 Planers

The PHO 2000 electric planer from Bosch provides high surface quality and consistent material removal – even in demanding jobs. The powerful 680 watt motor makes planing considerably easier and faster, and the combined guidance and cutting depth adjustment handle ensures the highest precision and secure guidance of the tool. As a result, you can effortlessly achieve absolutely flat surfaces and precisely chamfered corners.

Key product features

- Compact and powerful 680 watt planer for demanding applications up to a cutting depth of 2 mm
- Chip clearance on both sides for connecting to a dust bag or vacuum cleaner – chips are ejected on

the right or left, depending on the work situation

- Patented Woodrazor blade system – easy, effortless planing, the easiest and quickest possible blade changing and high surface quality

Other product advantages

- Chip clearance blower prevents chip congestion – for working without interruption
- 3 V-grooves for precisely rounding off corners
- Automatically extending parking rest – prevents damage to the workpiece or planer blade when putting the planer down
- Rebating depth up to 8 mm
- Combined guide and planing depth adjustment knob provides secure guidance and infinitely variable adjustment
- Improved planing depth adjustment and key and blade storage
- The best ergonomics due to optimised position of the softgrip handle which is suitable for both left and right handers

More power for your project

Bosch tools feature compact size and powerful performance, easy operation and high precision. The PHO 2000 electric planer ensures high surface quality even in demanding planing jobs. With its 680 watts of motor power, the PHO 2000 also makes this as easy as possible for you. The optimised position of the handle is suitable for left and right handers, and the softgrip insert provides more comfort and better handling. The combined guidance and cutting depth adjustment handle also enables continuously variable adjustment of the planing depth. The chip clearance blower prevents chip congestion – for uninterrupted planing and rapid results.

Plane and simple way to achieve the perfect surface

The PHO 2000 electric planer from Bosch is perfect for creating flat and cleanly planed wooden surfaces. Thanks to its three integrated V-grooves, you can also easily chamfer the edges on your workpiece. Do you want to fit a window or door? No problem. Do you need to plane the collar beam on a roof truss? Such extensive projects virtually take care of themselves with this powerful electric planer. With the Bosch electric planer, you can also produce grooves with a cutting depth of up to 2.0 millimetres or create entire rebates incredibly easily due to the rebating depth of 8 millimetres

and the maximum planing width of 82 millimetres. What’s more, you can also remove coats of varnish with the PHO 2000 to achieve a perfect result on your workpiece.

Powerful planer – compact size

Private users are increasingly discovering planing for a wide variety of DIY projects. With its PHO 2000 electric planer, Bosch has now developed a compact and powerful tool for proficient DIYers, which can be used to perform even demanding planing tasks professionally and reliably. The patented Woodrazor system with high-quality, quickly rotating carbide blades enables you to achieve excellent surface quality. So you not only achieve superb material removal, you also save yourself the hassle of having to rework.

Professional equipment for perfect results

The patented Bosch Woodrazor blade system of the PHO 2000 enables you to plane quickly with no effort. Producing flat surfaces or perfect chamfers has never been so easy. The blades are also quick and easy to change. The hex key for changing the blades is located in the key depot on the planer. Chip clearance is possible on both sides, depending on the work situation. You simply connect a vacuum cleaner or dust bag to it to keep the work area perfectly clean during work. The parking rest supplied with the tool ensures that the electric planer is put down safely without damaging the workpiece.
