

TP-Link TL-WN8200ND network card WLAN 300 Mbit/s

Model: TL-WN8200ND

Manufacturer: TP-LINK

EAN: 6935364050740

Product Code: 859112

R1,280

What This Product Does

TP-LINK TL-WN8200ND is a 300Mbps high power wireless adapter that allows users to enable their PCs or notebooks with extremely powerful wireless capability to deliver performance enhancements. The adapter adopts high power design which offers up to 10 times the range of conventional adapters. One of the TL-WN8200ND's best features is its stronger penetrability, which can effectively ensure that signal still remains reliable when it passes through multiple walls or floors.

High Receive Sensitivity for Reliable Signal

TL-WN8200ND features its high receive sensitivity, which could let you move further away from the access point while still maintaining the same wireless signal. In this case, using TL-WN8200ND means that you don't have to move the laptop like a divining rod, and you can easily pick up the network with its strong sensitivity.

Two 5 dBi External Detachable Antennas

Two high gain external antennas insure stronger transmission and reception capacity. The two detachable antennas can be rotated and adjusted in different directions to fit various operation environments. For even more demanding applications, the antennas can also be replaced with diverse indoor antennas or directional antennas (using standard RP-SMA connector) to show even greater flexibility and wider wireless coverage.

One Button for Security Setup

TL-WN8200ND supports Wi-Fi Protected Setup™ (WPS) that allows users to simply press the "WPS" button on the exterior, instantly establishing a highly secured connection. Not only is it faster than normal security setups but more convenient in that you don't need to remember any password!

Desktop-Style Design & 1.5m USB Extension Cable

Besides the fashionable and novelty exterior, the desktop-style design is beneficial for the signal reception in various application environments, guaranteeing the smooth and stable signal. And TL-WN8200ND also provides 1.5m USB extension cable, convenient for your installation, even for the desktop equipment.

Bundled CD for Easy Operation

TL-WN8200ND comes with a CD with utility that helps you complete the software installation and wireless network settings, including security configurations and wireless connection, which is convenient for users, even for novice users.
