

i-tec USB 3.0 Metal HUB 4 Port with individual On/Off Switches

Model: U3CHARGEHUB4

Manufacturer: I-TEC

EAN: 8595611703881

Product Code: 860112

R1,096

Small but handy USB hub for all those struggling with insufficient USB ports on their PC or laptop. Its main advantage is the ability to turn the individual USB 3.0 ports on and off, allowing the hub to dedicate maximum speed and charging output to the active ports. You can also connect the hub to a power adapter with output of up to 10 W*, which will allow you to use, for example, several HDDs or SSDs at the same time or charge your phone or tablet.

Using the hub is simple – just connect it to a USB port on your computer and you're done – drivers will be installed automatically by the system.

* Not included
