Manufacturer: JVC

EAN: 4975769464867

Product Code: 861460

R3,025

The UX-C25DAB combines a classical elegant look with modern features like a DABplus receiver and wireless audio-streaming via BLUETOOTH.

DAB+ Tuner

DAB (Digital Audio Broadcasting) delivers crystal clear audio from your favourite FM stations as well as a broad range of digital-only stations ranging from news and talk, to classical and rock. Normally, DAB+ is delayed by a few seconds compared to the FM broadcast.

The unit will delay the FM in order to provide seamless switching between DAB+ and FM.

Enjoy both better quality and richer content with DAB+.

Small, Strong & Puristic

The UX-C25DAB or BT is not only impresses acoustically with a full clear sound but also visually. Bluetooth audio streaming ensures the wireless connection with smartphone and tablet.

CD player, USB port and Bluetooth audio streaming

The integrated CD player and a Bluetooth module, through which music can be played wirelessly from smartphones, tablets or notebooks, ensure varied entertainment. External sources can also be connected via the USB port or analog jack input.

The perfect sound

Five pre-programmed equalizer settings (flat, classic, jazz, rock, pop) and the two-way loudspeakers ensure optimum sound quality.
