maximum 5MP resolutions and ensures colorful monitoring with its large-aperture lens, high-sensitivity sensor, and attached supplemental lights.

SmartVid-Smart Video Enhancement

VIGI's professional technologies process videos to greatly improve their quality that is vital to your monitoring, including WDR, 3D DNR, Smart IR, and Night Vision.

Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

Comprehensive AI Detection with Pre-Set Rules Supported

By setting the detection rules in advance, VIGI AI-powered cameras can accurately capture various abnormal events. This will greatly reduce false alarms and cover your specified monitoring needs in different scenarios.

People & Vehicle Analytics

Quickly find people and vehicles of interest using a series of attributes.#

People Analytics

Filter people of interest by various attributes, such as hair length, and clothing, allowing you to improve search efficiency.

Vehicle Analytics

Identify and search for vehicles of interest based on vehicle color and type for targeting meaningful events in a short time.

Active Defense

Warn potential intruders instantly with sound and light when abnormal events.

Every Event is Under Your Control

VIGI camera intelligently detect activities, inform you instantly and response automatically by smart detection and two-way audio.

Outdoor PoE Connection, IP67 Protection

Just connect your camera via an RJ45 cable, then power supply and data transmission are all settled. Waterproof hardware protect stable performance in outdoor scenarios.

Remote Management

Take full control over your security anytime and anywhere on the VIGI app or client.

Live Views and Real-Time Alerts

Easily check your business security via 24/7 live views. Get notifications as soon as the cameras detect something abnormal.

Easy & Smart Playback

Quickly review and locate certain video clips by event, vehicle, person, time, and more. This will greatly improve event backtracking efficiency and reduce labor costs.

Customized Monitoring Patterns

Based on your monitoring needs, you can freely preset motion zones, adjust the rotation angle, set zoom in & out, customize patrol routes, control patrol routes, and more.

Four-Way Management

Flexibly manage your cameras via the web UI, NVR UI, VIGI app, and VIGI Security Manger for ease and convenience.

One system. Full security.

Run your business with peace of mind.
