Vivolink 4K USB-C HUB - Revolutionize Your Video Conferencing Experience

Elevate your meeting room setup with the Vivolink 4K USB-C HUB, the ultimate all-in-one solution for seamless video conferencing. This versatile hub connects all your equipment effortlessly, just like a docking station for your computer, ensuring a smooth and efficient meeting experience.

Key Features:

Universal Connectivity: Attach the USB-C HUB under your meeting desk to support all conference room connections. Simply connect a USB-C cable to your laptop for charging and instant access to all USB devices in the room.

Stunning 4K Video and Audio: Enjoy crystal-clear 4K video and high-quality sound via the HDMI output, enhancing your presentations and video calls.

Reliable Network Connection: The LAN port provides a stable, wired network connection to your laptop, ensuring uninterrupted internet access during meetings.

Cross-Platform Compatibility: The Vivolink HUB supports both Windows and Mac devices. For

Windows PCs, ensure DisplayLink is activated. MacBook users need to install the DisplayLink
