

Ultimea Poseidon D50 Soundbar

Model: U2500

Manufacturer: ULTIMEA

EAN: 4262533460201

Product Code: 867805

R3,861

Ultimea Poseidon D50 Soundbar

The Ultimea Poseidon D50 is a powerful, feature-rich soundbar that combines six high-performance drivers, two satellite speakers, and a wireless subwoofer to deliver rich, spacious sound. Ultimea BassMax™ technology delivers deep, resonant bass, while the SurroundX™ algorithm with built-in DSP processor transforms stereo sound into a realistic 5.1 multi-channel signal. High-quality materials, stable Bluetooth 5.3 connectivity, smart app control with extensive EQ settings, and easy installation make the system perfect for movie nights, everyday music listening, and TV viewing.

Cinema sound in your living room

Ultimea Poseidon D50 takes home entertainment to the next level. Based on six powerful drivers, two satellite speakers, and a wireless subwoofer, the system delivers full, spacious sound with 320 W of power. This surrounds you with sound from all sides, creating a realistic soundstage that is ideal for movies, TV shows, and dynamic multimedia content. Deep bass The heart of the low-frequency

system is a 5.25-inch subwoofer using Ultimea BassMax™ technology. An optimized magnetic circuit, enlarged enclosure, and 15 mm of cone excursion deliver impressive bass depth. Low frequencies are fuller, more resonant, and perfectly audible even at lower volume levels.

True surround sound

The built-in DSP and proprietary SurroundX™ algorithm convert 2.0 PCM stereo signals into 5.1 multi-channel sound. The result? An authentic spatial experience, clear sound positioning, and realistic audio depth. Every sound you hear becomes more dynamic, and dialogue, effects, and music are naturally separated.

Precision and quality of drivers

The soundbar uses drivers with aircraft-grade NdFeB magnets and diaphragms made of composite fibers and fabrics. This combination ensures high sensitivity, clarity, and purity of sound across the entire band. Every detail is clear, and the sound remains consistent even at high volume levels.

Full control from the app

With the dedicated app, your smartphone becomes an advanced remote control. You have 6 equalizer modes, a 10-band equalizer, and as many as 121 preset matrices at your disposal, allowing you to precisely adjust the sound character to the content and your preferences. In addition, you can adjust the sound level of the satellite speakers and select different surround modes.

Stable connectivity and easy installation

Bluetooth 5.3 guarantees stable, wireless audio transmission from mobile devices. The soundbar also works seamlessly with 4K TVs, and thanks to plug & play, it is ready to use almost immediately after unpacking. Its compact design and the option of wall mounting or placing it on a stand make the Ultimea Poseidon D50 easy to fit into any interior.
