Ultimea Aura A50 Pro Soundbar

The Ultimea Aura A50 Pro is an advanced audio system that delivers realistic, spacious sound with precise positioning and clear depth. The combination of BassMX™ and SurroundX™ technologies with six powerful speakers and a wired subwoofer guarantees powerful bass, clear dialogue, and dynamic effects in movies, games, music, and sports broadcasts. With lossless HDMI eARC transmission and smart app control, you get full control over the sound and quick sound adjustment for any content, and simple installation makes the system ready to go almost immediately.

Sound just like in the cinema

Ultimea Aura A50 Pro is designed for full, spacious sound in your living room. The 5.1 system with Dolby Atmos support provides an immersive spatial experience where every effect has its precise place. The sound surrounds the viewer from all sides, creating a realistic scene. BassMX™ and SurroundX™ technologies are responsible for the deepened sound stage and clearly expanded rear

field. Advanced audio algorithms ensure accurate positioning of effects, making dialogue, music, and ambient sounds clear, dynamic, and natural.

Powerful, controlled bass

The set is complemented by a wired 4-inch subwoofer that delivers deep and responsive bass. Low frequencies are clear and well-defined, enhancing the excitement of action scenes, concerts, and dynamic gameplay without dominating the rest of the spectrum. Each of the six high-performance speakers works in perfect harmony to deliver clear and accurate sound. The system is designed to reproduce sound with maximum accuracy.

Smart control from the app

The dedicated Utimea app turns your smartphone into an advanced remote control. You have 6 EQ modes, a 10-band equalizer, and 121 preset sound settings at your disposal. What's more, the soundbar offers preset sound profiles for various applications, including sports, music, movies, dialogue, and games. Each mode is designed to highlight key elements of the content, from clear speech and dynamic effects to a balanced music scene.

Lossless quality and easy installation

The Utimea Aura A50 Pro supports lossless audio transmission via HDMI eARC, ensuring high-quality audio. Setup is quick and intuitive thanks to a wide range of connectors, including HDMI eARC (HDMI to TV), optical input, AUX, passive subwoofer port, and DC IN power supply. It's a system that you can start up without complications and immediately enjoy to its full potential.
