Ultimea Aura A40 Soundbar

The Ultimea Aura A40 is a versatile soundbar designed to deliver a cinematic experience in your living room. It offers virtual surround sound, 8 powerful speakers, powerful output, and deep bass generated by a 4-inch wired subwoofer. Thanks to BassMX and SurroundX technologies, the sound is dynamic, spacious, and detailed, and extensive customization options allow you to perfectly tailor the sound to your preferences. The whole thing is complemented by convenient control via a mobile app, Bluetooth 5.3 connectivity, simple setup, and a slim design that is perfect for medium and smaller living spaces.

Virtual surround sound

Thanks to 7.1 Channel Virtual Surround Sound technology, the sound gains clear depth and space. Four dedicated speakers—front and rear—are responsible for realistic audio effects, creating the impression of sound coming from different directions. A peak power of 330 W ensures adequate dynamics for movie viewing, music listening, and watching sports events.

BassMX and SurroundX technologies

Ultimea BassMX and Ultimea SurroundX technologies are responsible for clear bass and precise surround sound reproduction. The four-inch wired subwoofer delivers deep, low tones that emphasize the action and add realism to every scene. The whole system ensures high-quality sound reproduction, maintaining the clarity of dialogue and the detail of effects.

Full sound customization

The soundbar offers up to 6 adjustable surround levels for individual channels: rear left (SL), rear right (SR), front left (FL), and front right (FR). In addition, you get 121 EQ presets, 6 equalizer modes, and a 10-band equalizer, allowing you to precisely adjust the sound to your preferences and the type of content being played.

Smart control via the app

With the smart app, your smartphone can act as an advanced remote control. From the app, you can quickly change settings, adjust the equalizer, and select ready-made sound profiles. Intuitive controls make sound personalization convenient and accessible at any time.

Smooth connectivity and simple installation

The Bluetooth 5.3 module guarantees a stable connection and high-quality audio transmission. The soundbar supports optical (cable included), USB, AUX, FR, FL, SUB OUT, and DC IN connectors, allowing you to easily connect various audio sources. The setup process is quick and hassle-free, so the system is ready to go almost immediately after unpacking.

Designed for any interior

The elegant, compact design makes the Ultimea Aura A40 a perfect fit for medium and smaller living spaces. The minimalist design blends harmoniously with modern living room interiors, without dominating visually, while offering a full range of sound capabilities. The Ultimea Aura A40 is ideal for those who expect rich, spacious sound, extensive customization options, and convenient control—all wrapped up in a stylish package.
