ISEASY MGBS-604D 4-Burner Gas Range

The ISEASY MGBS-604D gas range is a practical built-in solution that combines robust construction with high cooking performance. The model is equipped with four burners of varying power, allowing you to prepare several dishes simultaneously and precisely adjust the flame intensity to suit the type of dish. Its compact dimensions and thoughtful design make it a perfect fit for modern kitchen layouts, offering convenience and time savings every day.

Customized dimensions and easy installation

The appliance is designed for built-in installation, allowing it to blend seamlessly into the kitchen countertop. The cooktop measures 23.22 inches wide, 20 inches deep, and 4.52 inches tall, maintaining a compact yet functional profile. The cutout dimensions of 20.04 inches wide and 18.89 inches deep allow for efficient installation, which significantly simplifies preparing the space for the appliance.

Four burners with varying power

The cooktop is equipped with four burners that provide flexibility while cooking. The most powerful burner, with 3.3 kW of power, is perfect for quick frying and cooking in large pots. Two medium burners, each with a power of 1.75 kW, allow for comfortable preparation of everyday meals, while the smallest 1.0 kW burner is ideal for warming or gentle simmering. This configuration allows you to perform various cooking tasks simultaneously without losing control over the temperature.

Precise control and safety

The ISEASY MGBS-604D model features mechanical controls via four ergonomic knobs located on the right side of the unit. This design allows for intuitive flame adjustment and precise customization of the heat level to current needs. The cooktop is also equipped with a gas shut-off safety feature that automatically cuts off the fuel supply if the flame goes out, enhancing safety.

Versatile gas supply

The appliance supports both natural gas and propane-butane, making it easy to adapt to the available gas system. The NG/LPG conversion system ensures flexibility of use and makes the cooktop suitable for various living conditions without the need to replace the equipment.

Durable materials and easy cleaning

The hob surface is made of stainless steel, which not only gives it an elegant look but also makes it easy to keep clean. This material is resistant to dirt and daily use, ensuring the appliance retains its aesthetic appearance for a long time. Sturdy cast-iron grates ensure the stability of cookware, guaranteeing durability and safety while cooking.

Everyday Comfort

The ISEASY MGBS-604D is designed with convenience in mind. Ergonomic knobs, a sturdy burner design, and the ability to use four heat sources simultaneously make everyday cooking faster and more efficient. Precise flame control allows you to achieve perfect results regardless of the type of dish being prepared
