ISEASY MGBG-603S2R 3-burner gas cooktop

The ISEASY MGBG-603S2R gas cooktop is a modern built-in solution that combines high performance with an elegant design. The unit is equipped with three burners with a total power of 7.75 kW, allowing for convenient preparation of a variety of dishes—from quick cooking to gentle warming. The black tempered glass surface, combined with sturdy cast-iron grates, ensures durability, stability for cookware, and an aesthetic look that fits perfectly into modern kitchens.

Diverse burners suited for every cooking need

The cooktop was designed with different cooking styles in mind, which is why it offers three burners with varying power settings. The largest burner, with 3.3 kW of power, is ideal for intense frying, boiling large quantities of water, or using a wok. The medium burner, with 2.7 kW of power, is

perfect for preparing dishes that require even frying or simmering. The smallest burner, with 1.75 kW, allows for precise heating and the preparation of delicate dishes, such as sauces or melting chocolate.

Dimensions tailored to kitchen cabinets

The MGBG-603S2R model is designed for installation in a kitchen countertop, ensuring an aesthetic and cohesive finish for the space. The hob is 60 cm wide and 52 cm deep, making it a versatile choice for most kitchens. The installation opening should measure 56 x 48 cm, while the total depth of the unit is 11 cm, which makes it easy to fit into standard cabinetry.

Flexible gas supply and convenient operation

The cooktop supports both natural gas (NG) and bottled gas (LPG), offering great installation flexibility in various conditions. The set includes the appropriate nozzles, which allow for easy adaptation of the appliance to the selected gas source. The electric ignition, activated by pressing and turning the knob, ensures quick and convenient ignition of the burners, while maintaining full control over the flame.

Everyday Safety

The unit is equipped with a gas leak prevention system that automatically shuts off the fuel supply if the flame goes out. This feature enhances safety, especially in cases of accidental spillage on the burner or drafts. Sturdy construction and stable grates further contribute to comfort and confidence while cooking.

Durable materials and solid construction

The black tempered glass top not only looks elegant but is also resistant to high temperatures and easy to keep clean. Cast iron grates provide stable support for cookware, even during intense cooking, which translates to convenience in everyday use.

Important installation information

To ensure safe and proper operation of the appliance, installation should be performed by a qualified professional. After installation, carefully check all gas connections for leaks and ensure that the burners, their caps, and grates are properly installed. This preparation guarantees trouble-free and safe use of the cooktop for a long time.

Included in the set

- Gas hob x1
- User manual x1
- Gas connector x1
- Mounting brackets x2
- Gas nozzles x6
- Clamp x1
