

GIGABYTE H610M D3W WIFI6 LGA1700 2xDDR5 4xSATA 1xM.2

Model: H610M D3W WIFI6

Manufacturer: GIGABYTE

Product Code: 870255

R2,746

The GIGABYTE H610M D3W WIFI6 motherboard is designed to support the performance needs of modern computing environments. With compatibility for the 12th, 13th, and 14th Generation Intel Core processors, this motherboard empowers users with extensive processing power. Enjoy dual-channel memory architecture with support for DDR5 SDRAM, ensuring high speeds of up to 5600 MT/s, which enhances multitasking capabilities and overall system efficiency. It features multiple expansion slots, including PCIe 4.0 and M.2 sockets, allowing for upgrades and customization to meet specific user requirements.

This motherboard is equipped with high-definition audio support, delivering immersive sound quality for an enhanced multimedia experience. The built-in USB 3.2 Gen 1 ports offer quick data transfer rates, while the comprehensive set of connectivity options ensures seamless integration with various devices. Users can also benefit from added durability with features like anti-sulfur design and efficient thermal management to keep the system running smoothly under intense workloads. The GIGABYTE H610M D3W WIFI6 strikes a balance between performance, flexibility, and reliability,
