

InLine 19111N rack accessory Cable panel

Model: 19111N

Manufacturer: INLINE

EAN: 4043718337903

Product Code: 870551

R1,062

Efficient cable management in 1U:Optimizes horizontal cable routing in 19" racks and ensures clear structure when laying patch cables.

Robust plastic D-rings in C-design:Five rotatable cable clips offer flexible cable routing while protecting against kinks and abrasion.

Zero HE mounting option:Saves valuable rack space, as installation takes place in the same U area as active devices – without additional height units.

Tool-free adjustment:D-rings can be removed and repositioned without tools – for maximum flexibility when requirements change.

Completely pre-assembled with mounting material:Quick and easy integration thanks to complete scope of delivery including replacement D-rings.

The InLine 19" cable management panel with five horizontal plastic brackets has been specially developed for professional IT environments where structured and efficient cable management is essential. The D-rings in a sturdy C-design can be rotated 360°, removed without tools, and thus offer maximum flexibility.

Ideal for system houses, IT service providers, and network technicians, the 1U panel is suitable for the safe and clean organization of patch and network cables in 19-inch racks. The zero-U mounting saves valuable space, as the panel can be installed directly in the area of the active devices – without any additional height units required.

Rounded plastic brackets prevent damage from abrasion or excessive bending stress, thus extending the service life of the connected devices. The versatile mounting slots also allow for fastening with cable ties, increasing the flexibility of cable routing.

The panel is delivered pre-assembled and includes all mounting materials as well as additional replacement D-rings – a reliable solution for professional-level structured cabling.

Material: Sheet steel (panel), plastic (D-rings)

Installation height: 1U

Compatibility: 19-inch racks

Depth: approx. 100 mm

Dimensions of D-rings: approx. 43 × 43 mm

Number of D-rings: 5

D-rings: removable without tools

Scope of delivery: panel, mounting hardware, replacement D-rings
