

InLine USB-C extension, 5-port , 100W

Model: 31515D

Manufacturer: INLINE

EAN: 4043718332847

Product Code: 870585

R1,345

Extension for powerful chargers:The InLine® PowerHub distributes up to 100 watts of total power across five USB-C ports – ideal for system workstations with high energy requirements.

Compact design for maximum flexibility:Measuring just 91 × 36.5 × 23.2 mm, the PowerHub is perfect for mobile use, e.g. at trade fairs or in mobile service units.

Reliable power distribution thanks to Power Delivery 3.1:The intelligent charging technology detects the requirements of the connected devices and supplies them efficiently and in a battery-friendly manner.

Flexible application options thanks to USB-C input:Works with USB-C ports from USB 3.2 Gen2 specification or correspondingly powerful power supplies – ideal for modular workstation solutions.

Integrated wall mounting option:The practical hanging hole allows secure and space-saving attachment to walls or furniture.

The InLine® 5-Port USB-C PowerHub is the intelligent answer to modern power requirements in professional environments. Especially in workplaces, training rooms or for mobile use, it is crucial to charge multiple devices efficiently and safely at the same time. The PowerHub expands powerful

USB-C power supplies or ports (from USB 3.2 Gen2) with five full-featured USB-C outputs. The maximum available total power of 100 watts is dynamically distributed to the connected devices. Thanks to Power Delivery 3.1, the power supply is not only particularly fast, but also battery-friendly and safe – protection mechanisms against overvoltage and short circuits are integrated. Its compact dimensions and low weight make the PowerHub the ideal companion for on-site installations or mobile technical environments. It also creates order and structure at permanently installed workstations thanks to its integrated mounting hole. The PowerHub comes with a high-quality 1.2-metre USB 3.2 Gen2 cable.

A power supply unit is not included in the scope of delivery – we recommend using a powerful USB-C power supply unit or USB-C port that provides the required power. Suitable power supply units and cables can be found under accessories.

Input: USB-C (PD3.1/PD3.0) 20 V / 5 A (100 W)

Output: 5× USB-C (PD3.0) 15 V / 1.2 A (20 W per port)

Dimensions: 91 × 36.5 × 23.2 mm

Colour: Black

Scope of delivery: PowerHub, USB 3.2 Gen2 cable (1.2 m)
