

InLine 31516D mobile device charger Universal Black AC Fast charging Indoor

Model: 31516D

Manufacturer: INLINE

EAN: 4043718343621

Product Code: 870588

R1,469

Universal use worldwide: Thanks to modular country plugs (EU/UK/US), ideal for international rollouts and mobile workplaces.

Compact GaN design saves space: Powerful 65W charging electronics with minimal volume – ideal for travel kits and mobile technicians.

Efficient multi-port solution: Two USB-C and one USB-A port supply up to three devices simultaneously – ideal for versatile hardware environments.

Safe operation thanks to intelligent protection functions: Automatic shutdown in case of overload or overheating protects connected devices.

Standardised for professional IT infrastructures: Compatible with Power Delivery 3.0, QC4+, PPS and QC3.0 – for modern charging scenarios in companies.

The InLine® USB power supply 31516D is a professional all-in-one charging solution for modern working environments. With a maximum output of 65 watts and state-of-the-art GaN technology, it offers a particularly compact design without compromising on charging performance. Two USB-C ports with Power Delivery 3.0, QC4+ and PPS, as well as a USB-A port with QC3.0, enable simultaneous charging of multiple devices – from smartphones and tablets to compatible notebooks. Flexibility plays a key role, especially in professional environments: three modular country plugs (EU, UK, US) make the power supply suitable for worldwide use – ideal for international teams, service technicians or as a standardised charging solution in global companies. Automatic adaptation to input voltages from 100–240V makes it a universal companion in any infrastructure. Thanks to intelligent safety mechanisms such as overvoltage, short-circuit and overheating protection, the power supply unit ensures reliable operation even under intensive use. Automatic charging resumption after cooling further increases reliability in everyday work. Weighing only approx. 107 grams and with compact dimensions, the InLine® power supply unit is ideal for mobile applications – whether in IT service, rollout kits or in the international equipment of home office workstations.

Input voltage: 100–240 VAC, 1.5 A

Frequency: 50/60 Hz

Max. output power: 65.0 W

Protective functions: Overvoltage, short-circuit and temperature protection

Automatic charging resumption after cooling down

Weight: approx. 107 g

Dimensions: approx. 69 x 51 x 30 mm

Includes USB-C to USB-C cable (1 m)

Scope of delivery: 3 country plugs (EU/UK/US), instructions (DE/EN)
