

InLine 51128K interface cards/adapters Internal

Model: 51128K

Manufacturer: INLINE

EAN: 4043718343591

Product Code: 870675

R1,562

Dual Gigabit Ethernet: Two RJ45 ports with 10/100/1000 Mb/s each enable parallel connections for maximum flexibility

High system compatibility: PCIe x1 interface and supplied low-profile slot bracket for standard and compact housings

Optimised network performance: Support for jumbo frames (up to 9K), VLAN tagging (802.1Q) and flow control (802.3x)

Energy-efficient data transmission: Supports IEEE 802.3az-2010 (Energy Efficient Ethernet) for lower power consumption

Reliable Realtek chipset: Combination of RTL8111 and ASM1182e for stable performance in professional environments

The **InLine® Dual Gigabit network card** with two RJ45 ports is the ideal solution for professional **server, workstation and AV environments** where a stable, redundant or separate network

connection is required. Thanks to the **PCIe x1 interface** and the supplied **low-profile slot bracket**, it can be flexibly integrated into a wide variety of housing types.

The card provides a reliable **10/100/1000 Mb/s Ethernet connection** via both ports and supports modern network technologies such as **IEEE 802.1Q VLAN, Jumbo Frames up to 9K** and **Flow Control according to 802.3x**. In addition, the **Energy Efficient Ethernet (EEE) function** (802.3az) improves energy consumption during operation – ideal for continuous use in the company. The integrated **Realtek RTL8111 chipset** in combination with the ASM1182e controller ensures stable and high-performance data transmission - even in demanding network scenarios. All common operating systems are supported, including **Windows, Linux, FreeBSD** and virtualisation platforms such as VMware ESXi.

Technical data:

Bus type: PCIe v1.1 (2.5 GT/s) 1-lane

Connection: 2 x RJ45 (copper)

Data rate: 10/100/1000 Mb/s (Gigabit Ethernet)

Maximum cable length:

10BASE-T: Category 3 or higher (up to 100 m)

100BASE-TX: Category-5 or higher (up to 100 m)

1000BASE-T: Category 5e or higher (up to 100 m)

Chip set: Realtek RTL8111 + ASM1182e

Supported protocols: IPv4, IPv6

Dimensions: 79 mm x 60 mm (PCIe board)

Network & protocol support

Supported IEEE standards:

IEEE 802.3 (Ethernet), IEEE 802.3u (Fast Ethernet), IEEE 802.3ab (Gigabit Ethernet)

IEEE 802.3x (Flow Control), IEEE 802.1Q (VLAN)

IEEE 802.3az-2010 (EEE) Energy Efficient Ethernet

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Features:

Auto-negotiation (10/100/1000 Mb/s)
MDI/MDI-X (automatic crossover detection)
Receive-Side Scaling (RSS)
Support for jumbo frames (up to 9K)
UDP/TCP & IP checksum offloading

Operating system support

Windows: 11, 10, 8, 7
Windows Server: 2008 R2, 2016, 2019, 2021
Linux: from kernel version 2.6.30
Other: FreeBSD, virtualisation environments (e.g. VMware ESXi)

Environmental conditions:

Operating temperature: 0 °C to 55 °C
Storage temperature: -40 °C to 70 °C
Maximum humidity: 90 %

Scope of delivery:

1x InLine® Dual Gigabit network card, 2x RJ45 1Gb/s
1x low-profile slot bracket
1x driver CD
1x operating instructions (German/English)
