

InLine Dust Cover Set for Computer Interfaces, 17pcs.

Model: 59941K

Manufacturer: INLINE

EAN: 4043718215409

Product Code: 870689

R889

Effective protection for unused interfaces: Prevents dust, dirt and corrosion on open sockets of PCs, workstations and servers.

Versatile application thanks to comprehensive set: Contains covers for USB 3.0, Firewire, eSATA, PS/2, RJ45, RCA and 3.5 mm jack.

Tool-free insertion and removal: The flexible silicone elements can be installed quickly - ideal for maintenance and IT services.

Longer service life for sensitive connections: Protects against environmental influences in offices, data centers or industrial applications.

Organized cable and port management: Supports a clean and professional look for presentation systems and IT infrastructures.

The InLine® dust protection set for PC interfaces is the practical solution for protecting unused ports

on computers, servers and other IT systems. Especially in dust-intensive environments such as workshops, production areas or mobile demonstration devices, open sockets carry an increased risk of contamination and contact damage.

The 17-piece set contains custom-fit silicone protective caps for common interfaces - including 8x USB 3.0, 1x Firewire (IEEE1394), 1x eSATA, 2x PS/2, 2x RJ45, 1x RCA and 2x 3.5mm jacks. The dust-proof caps can be attached without tools and removed just as quickly if required - a decisive advantage for IT service applications or temporary installations.

The targeted use of the protective covers not only protects sensitive contacts from dust and dirt, but also minimizes corrosion and the associated functional failures. The InLine® dust protection set therefore helps to extend the service life of your hardware and supports structured and professional cabling and port use in a wide range of IT environments.

8x dust protection for USB 3.0 sockets

1x dust cover for Firewire IEEE1394 socket

1x dust cover for eSATA socket

2x dust covers for PS/2 sockets

2x dust cover for RJ45 jacks

1x dust cover for RCA jack

2x dust cover for 3.5mm audio/microphone jacks

Material: Silicone

Color: Black
