This 51.5" curved 6K UltraWide monitor is designed to maximize productivity and replace multi-display setups with a single, extremely high-resolution solution. The 6K resolution (6144 x 2560), 21:9 aspect ratio, and IPS Black panel technology deliver exceptional detail, deep blacks, and high contrast for demanding professional use.

The Dell UltraSharp 52 Thunderbolt Hub Monitor supports efficient multitasking with Picture-by-Picture (PbP), Picture-in-Picture (PiP), and Auto KVM functionality. The monitor allows multiple computers to be connected simultaneously and controlled using a single keyboard and mouse. Thunderbolt 4 connectivity enables video, data, and up to 140 W of power delivery through a single cable.

The monitor is designed for long-term, comfortable use. TÜV Rheinland 5-star Eye Comfort certification, hardware-based Low Blue Light technology, and a 120 Hz refresh rate help reduce eye strain throughout the workday. Comprehensive ergonomic adjustments and broad VESA compatibility enable flexible installation across different work environments.
