

EcoFlow DELTA Pro 3 battery

Model: EFDELTAPro3EB

Manufacturer: ECOFLOW

EAN: 4895251622844

Product Code: 873671

R70,022

Battery for EcoFlow DELTA Pro 3

Imagine being able to power all your devices wherever you are, without having to rely on traditional energy sources. This modern and compact battery is designed specifically for the EcoFlow DELTA Pro 3 power station, and hides an impressive 4096 Wh capacity that you can expand your station with. It is possible to combine the DELTA Pro 3 with two batteries, giving you a total of as much as 12 kWh without taking up much space. Enjoy even more energy independence in all conditions.

Expand your power station

With an additional battery, you can easily expand your EcoFlow DELTA Pro 3 station to up to 12 kWh by combining it with two additional modules. Each 4 kWh battery increases the capacity of your station, allowing you to power more devices or equipment for long periods of time during extended trips or emergencies. This flexibility allows you to customize your kit exactly to your needs.

Resistant to outdoor conditions

The battery for the EcoFlow DELTA Pro 3 is designed to withstand demanding conditions. With a temperature range of -10°C to 45°C, it's ready for any challenge - whether you're camping on chilly nights or during hot summer days. The battery's ability to be stored in the same temperature range makes it ready to operate in any weather conditions.

Thoughtful design

The battery has been designed to be conveniently stackable in both horizontal and vertical orientations. This means that no matter how little space you have, you will always find a way to optimize the space under your power station. Each additional battery adds another layer of capacity while maintaining a compact profile, so the whole thing remains convenient to use and transport.

Included

- EcoFlow DELTA Pro 3 battery
- Cable connecting the station to the battery
- User manual

Manufacturer	EcoFlow
Manufacturer code	EFDELTAPRO3EB
Color	Silver
Capacity	4096 Wh
Dimensions (L x W x H)	Approx. 694 mm x 295 mm x 215 mm
Weight	Approx. 33 kg
Connection port	1 x Port for connecting an additional battery
Wheel support	No
Stick support	No
Stacking	Horizontal or vertical
Discharge temperature	-10°C ~ 45°C (14°F ~ 113°F)
Charging temperature	0°C ~ 45°C (32°F ~ 113°F)
