TOMTOC TechPack-T73 X-Pac 15.6"/30L Laptop Backpack (Black)

The TOMTOC TechPack-T73 is a modern 28-liter backpack that combines minimalist design with high functionality and durability. The use of X-Pac material on the front panel and durable 1680D nylon ensures resistance to harsh conditions and daily use, while the well-thought-out compartment layout allows you to comfortably carry a laptop up to 16 inches, a tablet, and all necessary accessories. Add to that durable YKK zippers, padded shoulder straps, and an adjustable chest strap. With dimensions of 47 × 31 × 17.5 cm, the backpack offers ample capacity without sacrificing its compact form.

Secure space for your laptop and devices

The dedicated gear compartment is designed to accommodate a laptop up to 16 inches and a tablet up to 12.9 inches. The interior, lined with soft, high-density padding, effectively protects your gear from shocks and accidental impacts, while the use of waterproof YKK zippers keeps the contents of the backpack safe in the rain, enhancing the security of your electronics.

Thoughtful organization and quick access

The backpack features a large main compartment and a number of practical pockets that help keep things organized. Two front pockets allow for quick access to frequently used items, and the zippered side pocket is perfect for small items such as headphones, a power bank, or keys. There is also a soft top pocket, ideal for glasses or other delicate items.

Durable materials and weather resistance

The front of the backpack is made of upgraded X-Pac fabric, which is highly durable and water-resistant. The entire construction is based on durable 1680D nylon, which translates to exceptionally low susceptibility to abrasion and other mechanical damage. Sturdy YKK zippers and buckles further enhance the backpack’s durability and reliability for everyday use.

All-day comfort

Ergonomic, padded shoulder straps and a contoured back panel improve comfort even during extended use. Additionally, an adjustable chest strap helps distribute the weight evenly, relieving pressure on the shoulders. Furthermore, a carrying handle and a strap for attaching to a suitcase make it easier to use the backpack while traveling.
