AOCHUAN S3 Gimbal with AI Sensor (Black)

Meet the AOCHUAN S3 with AI Sensor (Black)—an advanced 3-axis gimbal designed for demanding creators. It offers perfect image stabilization, intelligent 360° tracking, a dual AI camera system (front + rear), a bright fill light, and a touchscreen for precise control. Plus, professional zoom and focus control, 5 recording modes, and a sturdy aluminum construction with a built-in extension arm. It's a tool that turns every recording into premium footage—regardless of your experience level.

Cinema-quality stabilization—record without shakes or compromises

An advanced, professional 3-axis stabilization system effectively eliminates all shakes and vibrations. This ensures your footage is smooth, polished, and ready for publication without additional editing. The perfect solution for vloggers, TikTok creators, travelers, and anyone who wants to look like a pro.

Intelligent 360° tracking and gesture control

Thanks to the built-in AI system, the gimbal automatically tracks your movement across a full 360° range, keeping you in the center of the frame at all times. You can control recording with simple gestures—without touching the device. This is incredibly convenient during solo shoots, live streams, or dynamic shots.

Dual AI Camera and Perfect Lighting in Any Situation

The AOCHUAN S3 is equipped with a dual AI camera system (front and rear), which significantly increases tracking and recognition precision. The built-in LED light, with a brightness of 150 lumens and a color temperature of 6000K, provides natural, clear lighting—even in low-light conditions. Your recordings will always look professional.

Touchscreen - full control at your fingertips

The intuitive touchscreen allows for quick and precise management of gimbal settings. Switch modes, configure parameters, and adjust the device's operation in real time—without unnecessary complications. It's a convenience you'll appreciate from the very first use.

Get creative with recording modes and zoom control

The gimbal offers 5 operating modes (PF, F, POV, DM, GO) that adapt the stabilization to your shooting style. Whether you're capturing dynamic scenes, panoramas, or static shots—you have full control. Additionally, professional zoom and focus controls let you create more advanced, cinematic shots.

More in the frame - built-in aluminum extension arm

The integrated aluminum alloy extension arm lets you capture a wider perspective and more creative shots. Perfect for selfies, vlogs, or group shots. The sturdy construction ensures durability and stability even when fully extended. At the same time, it weighs approximately 562.5 g and has compact dimensions when folded.

Power that keeps up with your creativity

A dual battery with a capacity of 2550 mAh (7.2V) provides up to 10 hours of standby time. The gimbal charges in about 3 hours and supports smartphones with a width of 52–87 mm and a weight of up to 500 g. Thanks to its wide operating range (-10°C to 55°C), it performs well both in winter and on hot days.

Included:

- AOCHUAN Smart S3 gimbal
- Tripod
- EVA carrying case
- USB-C charging cable
- S3 user manual

Manufacturer	AOCHUAN
