R1,812

AOCHUAN XE Gimbal with RGB Lighting (Black)

Meet the AOCHUAN XE (black)—one of AOCHUAN's best-selling gimbals, which owes its popularity to its excellent value for money. It offers professional 3-axis stabilization, intelligent face tracking, gesture control, precise zoom and focus control, and as many as 4 recording modes. Lightweight, compact, and extremely functional—it's the perfect tool for anyone who wants to create smooth and attractive video content without unnecessary complications.

Record smoothly, like a pro

The advanced 3-axis stabilization system effectively eliminates shakes and vibrations, ensuring smooth, aesthetically pleasing shots. Whether you're recording on the move, while walking, or during dynamic action—your videos will look professional and pleasing to the eye.

Discover 4 recording modes

The gimbal offers 4 operating modes (F, POV, DM, GO) that adapt the stabilization to your recording style. This lets you easily transition from calm shots to dynamic scenes—without complicated settings. It's full control over the final result.

Professional image control - zoom and focus at your fingertips

Built-in zoom and focus controls let you achieve more advanced, cinematic effects. Without needing additional accessories, you have full control over how your footage looks—quickly, intuitively, and precisely.

Lightweight, compact, and always ready to go

The AOCHUAN XE weighs just about 350 g and has compact dimensions, so you can easily fit it in a bag or backpack. When folded, it takes up minimal space, making it the perfect companion for travel and everyday filming.

Precision and a range of motion that gives you freedom

The gimbal offers impressive angular accuracy of 0.01° , which translates to exceptionally smooth movement. The operating ranges (pan 275° , tilt 83° , roll 318°) allow for creative framing and freedom in capturing shots—exactly the way you want.

Long, uninterrupted operation—a battery you can rely on

The built-in 2600 mAh battery provides up to 8–10 hours of standby time, allowing you to record all day without worrying about power. Charging takes about 3.5 hours, and the device operates in a wide temperature range (0°C – 55°C), making it suitable for various conditions.

Stand out in every shot with creative RGB lighting

The version with a 7-color RGB lighting module opens up entirely new creative possibilities. With a variety of colors, you can set the mood for your recordings, match the lighting to the scene's atmosphere, or simply stand out from other creators. Whether you're recording a vlog, short clips, or
