R2,522

AOCHUAN P2 Gimbal (White)

The AOCHUAN P2 is a modern, magnetic 3-axis gimbal that takes mobile filming to a whole new level. It offers professional image stabilization, unlimited 360° face tracking, gesture control, and an intelligent AI module with adjustable fill light. Thanks to MagSafe compatibility and a large OLED screen, you have full control over every shot—quickly, conveniently, and without compromise. This is the gear for those who want to create smooth, impressive footage effortlessly.

Stability like on a movie set - full professionalism without shake

Advanced 3-axis stabilization effectively eliminates shake, even while moving. Whether you're recording a vlog, a travel vlog, or dynamic sports footage - the image remains smooth and professional. It's a huge difference you'll notice from your very first recording.

Smart tracking and gesture control

The 360° Face Tracking feature automatically follows your face, ensuring you're always in the center of the frame. Add gesture control to that, and you gain complete freedom to record without touching the device. The perfect solution for solo creators, live streamers, and anyone recording content without assistance.

Perfect lighting in any conditions

The magnetic AI module with a built-in fill light (0-100% adjustable) ensures perfect lighting regardless of location or time of day. Your recordings will be clear, well-lit, and professional—even in low light.

Full control over the shot, zoom, and focus at your fingertips

With precise focus and zoom control, you can create more dynamic and polished shots. Smooth transitions, zooms, and detailed control make your footage look like a professional production.

6 recording modes - unleash your creativity

The AOCHUAN P2 offers as many as 6 operating modes: L, PF, F, POV, DM, and GO. Each corresponds to a different recording style—from static shots to dynamic action scenes. This makes it easy to tailor the device to your needs and creative ideas.

Compact, foldable, and ready for any trip

Despite its vast capabilities, the gimbal is lightweight (398 g) and folds down to a handy size. It fits easily into a bag or backpack. The built-in extendable arm further expands your framing options, which you'll especially appreciate when taking selfies or shooting from a distance.

Power that keeps up with you

The dual battery (2 × 800 mAh) provides up to 6–7 hours of runtime, and a full charge takes only about 2 hours. The device operates in a wide temperature range (-10°C to 55°C), making it suitable for both outdoor use and more challenging conditions.

User-friendly and versatile

The MagSafe-compatible magnetic mount and adjustable range (55–80 mm) make mounting your phone quick and hassle-free. The large OLED screen provides a clear view of settings, and full rotation (pan 360°, roll 260°, tilt 63°) gives you maximum freedom to capture shots exactly as you want.

Included:

- AOCHUAN P2 Gimbal (white)
- Tripod
- USB-C charging cable
- AI module with built-in fill light
- Carrying case
- User manual

Manufacturer	Aochuan
