AOCHUAN X Pro Standard Gimbal (Gray)

The AOCHUAN Smart X Pro is an advanced 3-axis gimbal designed for demanding mobile content creators. It offers professional image stabilization and up to 6 recording modes. Equipped with an OLED screen and wireless smartphone charging, it gives you complete creative freedom—wherever you are. Thanks to the removable 3200 mAh battery and lightweight, compact design, you can record longer and more comfortably, without compromise.

Create the way you want - 6 recording modes

You have 6 modes at your disposal: L, PF, F, POV, DM, and S. Each corresponds to a different filming style—from smooth panoramas to dynamic first-person shots. This lets you tailor your recording style to any situation and creative vision.

Cinema-level stability - no more shaky footage

The advanced 3-axis stabilization system eliminates shake even during intense movement. Whether you're walking, running, or recording dynamic scenes – the image remains smooth and professional. This solution instantly elevates the quality of your footage.

Always ready to go - even when your phone is running low on power

The unique wireless smartphone charging feature (5V/0.4A) allows you to power your device in an emergency while recording. It's a practical solution that saves the day when your phone's battery starts to run out – especially when you're out in the field.

Power that keeps up with your creativity

The removable and rechargeable 3200 mAh battery provides up to 7-10 hours of operation (without using wireless charging). When the power runs out, simply swap the battery and keep going. A full charge takes about 2.5 hours, allowing you to get back to recording quickly.

Full image control and perfect lighting

Precise zoom and focus control let you create more polished and dynamic shots. The built-in fill light ensures proper lighting, and the clear OLED screen provides quick access to key settings—everything at your fingertips, without unnecessary interruptions.

Lightweight, foldable, and ready for any occasion

The Smart X Pro weighs just 310 g and folds down to a compact size, so it fits easily into a bag or backpack. It supports smartphones with a width of 55-90 mm and can hold devices weighing up to 250 g. A wide range of motion (pan 310°, roll 330°, tilt 76°) gives you freedom to frame your shots, while the sturdy polymer composite construction ensures durability and comfort of use in temperatures ranging from 0°C to 45°C.
