

AOCHUAN S2 Gimbal (Black)

Model: 1010100310

Manufacturer: AOCHUAN

EAN: 6972467710218

Product Code: 874776

R3,698

AOCHUAN S2 Gimbal (Black)

The AOCHUAN Smart S2 is an advanced 3-axis gimbal designed for demanding creators. It combines precise image stabilization, up to 6 recording modes, automatic 360° rotation, A-B motion tracking, built-in lighting, an OLED screen, and expandability via a cold shoe mount. Additionally, it offers long battery life, reverse charging, a retractable metal handle, and a sturdy tripod. It's a complete tool for creating professional content—wherever you are.

3-axis stabilization - smoothness like a professional production

The advanced 3-axis stabilization system effectively eliminates vibrations and shocks, even during intense movement. This makes your footage look like it was shot with a professional camera - smooth, stable, and free of distortion. The perfect solution for vlogs, reports, travel videos, and dynamic shots.

6 recording modes - full control over the frame

The gimbal offers PF, F, L, POV, DM, and GO modes, allowing you to tailor the camera's behavior to a specific scene. Want smooth panoramas, dynamic shots, or complete freedom of movement? Choose a mode and get started. It's a tool that gives you unlimited creative freedom.

A-B Motion Track - program the camera's movement

The A-B motion track feature lets you save two points and automatically reproduce the movement between them. It's the perfect solution for repetitive shots, product presentations, or studio recordings. You save time and achieve consistent, professional results.

360° rotation - complete creative freedom

The ability to rotate 360° automatically or manually allows you to create spectacular shots without limits. The gimbal can rotate smoothly around its own axis, delivering spectacular visual effects and entirely new narrative possibilities.

Expand your setup - cold shoe mount

The built-in cold shoe mount allows you to attach additional accessories, such as a microphone or extra lighting. This lets you transform your gimbal into a full-fledged mobile recording studio—tailored exactly to your needs.

Long battery life and a power bank in one

Equipped with a high-capacity battery (up to 5200 mAh), the AOCHUAN Smart S2 provides up to 16 hours of runtime. What's more, it supports reverse charging, so you can charge your phone directly from the gimbal. This is an indispensable solution during long shoots and trips.

Functionality and convenience in every detail

The clear OLED screen provides quick access to the most important settings, and the built-in lighting improves recording quality in challenging conditions. The metal arm and stable tripod ensure comfortable operation and greater framing options. The entire unit is made of durable materials, guaranteeing longevity and reliability in all conditions.

Included in the set

- AOCHUAN Smart S2 gimbal
- Tripod
- USB-C charging cable
- Carrying case
- Gimbal user manual

Manufacturer	AOCHUAN
Model	Smart S2
Stabilization type	3-axis (professional anti-shake)
Recording modes	PF / F / L / POV / DM / GO
Control	Buttons + AOCHUAN app
Pan range	360°
Tilt range	324°
Roll range	±25°
Motion features	A-B motion track, automatic and manual 360° rotation
Display	OLED
Lighting	Built-in
Connectors	Cold shoe
Material	Polymer composite
Maximum load	Up to 300 g
Mount range	55–95 mm
Maximum phone thickness	Up to 10.5 mm
Dimensions	128 × 123 × 302.5 mm
Weight	630 g
Battery	5200 mAh (3.6 V)
Operating time	Up to 16 h

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
