

Mileseey DTX 10 Laser Distance Measurer with a 100-meter measuring tape

Model: DTX 10

Manufacturer: MILESEYY

EAN: 6971915322942

Product Code: 877577

R4,650

Mileseey DTX 10 Laser Rangefinder with 100m Measuring Tape

The DTX 10 combines a classic measuring tape with a laser, offering fast, smooth readings at distances of up to 100 meters. The green laser improves visibility, and the easy-to-read screen with large characters makes work easier in all conditions. Thanks to Bluetooth connectivity and integration with the Smart Life app, you always have your data at your fingertips. This solution works well for both precision tasks and everyday field work.

Measurement without unnecessary calculations

The use of smooth distance increments eliminates the need for manual recalculation of results. The range from 0 to 120 meters allows you to easily adapt the tool to various work scenarios—from quick

indoor measurements to more demanding outdoor tasks. Regardless of the distance, you can count on repeatable accuracy and instant readings, which speeds up project completion and reduces the risk of errors.

Laser and tape in one

The combination of a laser rangefinder with a classic measuring tape provides full operational flexibility. The 3.5 × 25 mm steel tape ensures durability and stability during use, and its extension range of up to 1.8 m allows for convenient measurements without support. If it wears out, you can easily replace it, which translates to a longer service life for the entire device and uninterrupted operation.

Data Always at Your Fingertips

Bluetooth connectivity enables quick transfer of results to the mobile app. Integration with the Smart Life app gives you access to saved measurements at any time, makes organizing them easier, and allows you to work more efficiently, even on the go. This is particularly useful when you’re working across multiple locations simultaneously or need to have your measurement history readily available.

Readability and ease of use

The color display with a large, easy-to-read font makes reading data quick and intuitive. The screen rotation feature adjusts the image to the device’s current position, enhancing user comfort. The display is available in both black and white, allowing you to adapt it to prevailing lighting conditions. The replaceable battery further enhances convenience and lets you work without long charging breaks.

Manufacturer	Mileseey
Model	DTX 10
Laser Class	Class 2 (1 mW)

Rangefinder Range	100 m
Screen Size	2.0"
Measurement angle	$\pm 0.3^\circ$
Continuous measurement	Yes
Add/Subtract	Yes
Special features	Tape blade replacement, automatic distance measurement, enlarged text mode, green laser line marking, incremental measurement, automatic height detection
Battery type	2600 mAh lithium-ion battery
Area/Volume function	Yes
Single measurement	Yes
Units	m/ft/in/ft+in
Measurement accuracy	± 2 mm

Gross weight: 1160, Net weight: 1000, Box length: 26,50, Box width: 15,50, Box height: 9,00, GPSR
