

Mileseey DP 20 Pro 100 Laser Rangefinder

Model: DP 20 Pro

Manufacturer: MILESEY

EAN: 6971915321860

Product Code: 877579

R3,582

Mileseey DP 20 Pro 100 Laser Distance Measurer

The Mileseey DP20 Pro 100 is a smart laser rangefinder that combines advanced measurement technology with the convenience of everyday use and an elegant design. The device offers single- and dual-direction measurement, a maximum range of up to 120 meters, and a clear OLED display that makes work easier in all conditions. Thanks to real-time synchronization with the mobile app, you can measure, create projects, and overlay data directly onto photos. Built-in memory, calculation functions, and a high-capacity battery make this a tool designed for professionals and demanding users.

Bidirectional measurement and maximum flexibility

The distance meter allows for quick switching between single- and bidirectional measurement, significantly increasing its functionality in various work scenarios. Whether you're measuring individual sections or need precise data from two points simultaneously, the device adapts to the

task. This solution is particularly useful during finishing work, interior design, or more advanced renovation projects.

Precision thanks to advanced technologies

The use of Mileseey's patented coaxial optics technology ensures measurement accuracy by eliminating typical errors resulting from beam misalignment. Additionally, the unique central laser beam serves as a visual indicator, facilitating the precise marking of measurement points. This makes every measurement both fast and intuitive.

OLED and angle measurement - full control over data

The clear OLED display ensures excellent visibility of results even in low light. The device also offers an angle measurement function, which significantly expands its range of applications—from simple linear measurements to more complex spatial calculations. It is a tool that gives you full control over every stage of the job.

Smart calculation functions

The Mileseey DP20 Pro 100 is more than just a distance measurer—it's a versatile measurement tool. The device allows you to calculate area and volume, perform automatic leveling, measure height, and divide a segment into equal parts using the 1/N function. This is a huge help when planning spaces, during installation, or in construction work where accuracy and time savings matter.

App integration and project work

Thanks to Bluetooth connectivity, the distance measurer works with the Smart Life app, enabling real-time data synchronization. You can mark dimensions directly on photos, create sketches and designs, and manage measurements from your smartphone or tablet. This feature significantly improves teamwork—results can be easily shared with partners and clients.

Memory and convenient data management

The built-in memory allows you to store up to 1,000 data sets, eliminating the need to manually record results. You always have all your measurements at your fingertips, ready for further analysis or use in a project. This solution will be particularly appreciated by those working on larger projects.

Powerful battery and versatility

The device is equipped with a high-capacity 1000 mAh lithium-ion battery that is easy to charge. It ensures long operating time without the need for frequent connection to a power source, which translates to greater freedom of operation in the field and on the construction site. The Mileseey DP20 Pro 100 is perfect for interior design, renovation work, space planning, and home decoration. Thanks to its wide range of functions and high precision, it is a tool for both DIY enthusiasts and professionals who expect reliability, convenience, and modern solutions in a single device.

Included

- Laser rangefinder
- Charging cable
- Carrying case
- Lanyard
- User manual

Manufacturer	Mileseey
Model	DP 20 Pro
Range	0.25 m to 120 m
Accuracy	± 1/16" (± 2 mm)
Units	m / ft / in / ft+in
Reference	Two-way measurement: center laser beam One-way measurement: rear
One-way / two-way measurement	Yes
1/Ń straight line segment	Yes

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Center laser beam	Yes
Area/Volume Measurement	Yes
P2P Measurement	Yes
Tilt Sensor	Yes
Bluetooth	Yes
Display	Backlit HD OLED display
Memory	20 groups
Battery Type	1000 mAh lithium-ion battery
Dimensions	160 × 42 × 20.5 mm
Weight	150 g

Gross weight: 470, Net weight: 250, Box length: 21,50, Box width: 7,00, Box height: 7,50, GPSR Link: https://psr-assets.innpro.pl/tools/sg_tools_measuring_tools.pdf, Information about data generation: <https://dataact.innpro.pl/Mileseey/6971915322836>
