R3,327

Darkflash DY470 computer case (white) + 4 fans

The Darkflash DY470 case will allow you to build a computer that will surprise you with its performance and stylish, modern design. Its transparent panels allow you to expose the components of your choice, while support for ATX, Micro ATX and ITX motherboards, various types of graphics cards and other components means that everyone can create a configuration perfectly suited to their needs. You'll also easily take care of proper cooling of your equipment - don't worry about it getting excessively hot! The kit also includes four fans.

Various expansion options

DY470 offers an exceptionally spacious interior, allowing you to easily expand and install the components of your choice. It allows you to install a graphics card of up to 410 mm (horizontally) or up to 390 mm (vertically, with optional PCIe4.0 cable), as well as a CPU cooler of up to 175 mm in height and a power supply of up to 200 mm. You can also accommodate two HDDs or one SSD, so

you can easily provide space for your photos, videos, games or documents.

Reliable cooling

The case provides extensive cooling capabilities, making it perfect for even the most demanding configurations. It allows the installation of up to 10 120 mm fans, so you can easily ensure effective air circulation and adequate temperature inside. However, that's not all. DY470 allows you to install two 360 mm water coolers, which guarantees efficient, stable operation of your computer even under heavy load.

Support for ATX motherboards with back-connect system

The Darkflash DY470 case is compatible with ATX motherboards with a back-connect system that allows most cables to be hidden. This space organization ensures a neat interior look, and also makes cable management easier. Forget about unsightly cables visible by the front panel!

Full protection against dust

The case is equipped with full dust protection. This makes it easy to keep it in perfect condition - don't worry about it getting dirty quickly! What's more, the removable system prevents dirt accumulation and is very easy to clean. All this use affects the stability of operation and longevity of components.

Ports you need

On the front of the case you will find numerous connectors that will make your daily work with the computer easier. You have a microphone input, a headphone jack, two USB 3.0 ports and one USB-C 3.2 port for fast charging and file transfer. So you can conveniently use your peripherals of choice!
