

Uni-T UT331+ Temperature and Humidity Meter

Model: UT331+

Manufacturer: UNI-T

EAN: 6935750533376

Product Code: 878394

R1,636

Uni-T UT331+ Temperature and Humidity Meter

The Uni-T UT331+ Temperature and Humidity Meter is a practical tool for measurements ranging from -20°C to 70°C and 0-99.9% RH, combining good accuracy ($\pm 0.5^{\circ}\text{C}$) with a fast response time of approximately 1 second. A memory for up to 299 measurements and the ability to export them via USB allow for convenient data management and analysis of results on a computer. Automatic logging and the MAX/MIN function help capture changes in parameters without the need for constant monitoring. The backlit LCD screen improves readability, and the auto-off feature reduces power consumption, enhancing convenience for both mobile and stationary use. With dew point and wet-bulb temperature measurement, plus the ability to calibrate readings via offset settings, the UT331+ is ideal for everyday technical, maintenance, and environmental applications.

- Uni-T UT331+ Temperature and Humidity Meter
- USB cable
- User manual
- Batteries x 4

Manufacturer	Uni-T
Model	UT331+
Temperature range	-20°C ~ 70°C
Temperature accuracy	±0.5°C
Dew point range	-78.2°C ~ 70°C
Dew point accuracy	±1°C
Wet bulb temperature range	-21.6°C ~ 70°C
Wet bulb temperature accuracy	±0.5°C
Humidity range	0 ~ 99.9% RH
Humidity accuracy	±3% RH (10–90% RH), ±3.5% RH (remaining range)
Resolution	0.1°C / 0.1% RH
Data memory	299 measurements
Units	°C / °F
Response time	approx. 1 second
Interface	USB
Functions	MAX/MIN, Data Hold, alarm, automatic logging
Offset settings	temperature, humidity, dew point, wet bulb temperature
Additional features	LCD backlight, auto power off, PC analysis
