Uni-T LM570LD-II Laser Level

The LM570LD-II is a compact laser level that uses a green LD beam, designed for basic finishing and installation tasks, such as marking horizontal, vertical, and cross lines. Thanks to its self-leveling feature and fast stabilization time, the device facilitates work on home installations, furniture assembly, or light construction projects, providing a clear reference point at distances of up to 10 meters.

Included
