Uni-T LM1000 Laser Distance Meter

The LM series laser distance meter from UNI-T is a practical tool for measuring distance, height, speed, and angle. It is ideal for both technical work and outdoor activities, such as navigation or golf. Thanks to the use of a pulsed laser, measurements are safe for the eyes, and the quick readout on the LCD display allows you to work efficiently without unnecessary waiting.

Functionality and ease of use

The device offers 6X magnification and a 25 mm objective lens, making it easy to precisely target even at greater distances. A measurement range of up to 1,000 yards with an accuracy of ± 1 yard ensures reliable results in everyday use. The built-in Li-ion battery eliminates the need for frequent battery changes, and the non-slip housing improves grip. Its light weight and compact size make the rangefinder easy to carry, and the auto-off feature helps conserve battery life.

Included

- Uni-T LM1000 Laser Rangefinder
- Carrying case
- Lanyard (strap)
- USB cable
- English manual

Manufacturer	Uni-T
Model	LM1000
Distance range	5-1000 yd
Accuracy	±1 yd ± DX 0.2%
Magnification	6X
Objective lens diameter	25 mm
Height	450 yd
Height measurement error	±0.5 yd
Speed range	0-300 km/h
Angle	±45°
Angle measurement error	±1°
Pulsed laser	Eye-safe
Quick distance measurement	Yes
LCD display	Yes
Quiet operation	Auto-off system
Power supply	3.7V 1500mAh Li-ion battery
Product color	Red and gray
Product net weight	230g
Product dimensions	114mm x 76mm x 48mm
