Uni-T A63 2-in-1 Food Thermometer

The UNI-T A63 thermometer is a 2-in-1 device that combines fast, non-contact infrared measurement with an accurate folding probe, allowing you to conveniently monitor temperatures both on the surface and inside food. A wide measurement range and fast response time simplify daily work, while the rotatable display and temperature difference function enhance readability and precision. Additionally, the HACCP indicator supports food safety assessment, and the rugged, IP65 waterproof housing and drop resistance make the device well-suited for demanding conditions.
