R2,553

IsEasy MGBG-312A dual-zone gas cooktop with glass panel.

IsEasy MGBG-312A gas cooktop combines aesthetics and performance. Equipped with an elegant glass panel - it gives the kitchen a modern look, while being very easy to clean. With two burners of 3300W and 1000W, it is perfect for everyday cooking, providing efficiency and saving time. It is also distinguished by its compact size and built-in capability, so it will be a great choice even for small kitchens.

Optimal cooking performance

With two cooking zones adapted to different needs, the IsEasy cooktop allows you to prepare food in ideal conditions. The large burner with 3,300 watts of power is perfect for frying or quick cooking, while the smaller burner with 1,000 watts of power is ideal for tasks such as braising or reheating.

Easy to use and clean

Convenient control knobs provide precise control over the size of the flame, and their non-slip design ensures durability and convenience. In addition, the glass surface of the hob makes cleaning quick and easy - just wipe it with a damp cloth to remove dirt and restore its shine.

Ideal for small spaces

Another advantage of the hob is its compact size - only 31 x 51 x 11.5 cm. You can also build it into an alcove measuring 47,5 x 26,5 cm. This way you can easily integrate it into any arrangement, and at the same time save space in the kitchen! This is an ideal solution even for small spaces.
