R3,902

Liene Amber M200 4x6" Portable Photo Printer

The handy Liene Amber M200 printer lets you transfer your digital shots to paper in just 59 seconds, offering professional photo studio quality anywhere. Thanks to dye-sublimation technology and 300 DPI resolution, each print impresses with exceptional color depth and precise detail reproduction. The device supports popular file formats such as JPG and PNG, allowing you to conveniently print photos without unnecessary complications.

Full mobility thanks to the built-in battery

What sets the M200 apart is its integrated 2300 mAh battery. It gives you complete independence from electrical outlets – a single full charge allows you to print up to 40 professional photos. It's the perfect solution for an outdoor wedding, a bonfire with friends, or a long trip where access to

electricity is limited. Enjoy the freedom to create souvenirs where emotions are born.

No ink, no mess

The printer uses dye-sublimation technology, which does not require liquid ink. This eliminates the risk of ink drying out, smudging prints, or having to clean the print head. The cartridges are extremely easy to replace, which simplifies operation to a minimum and allows you to focus on enjoying photography.

Memories resistant to time and water

In the final stage of printing, the Liene Amber M200 applies a special protective layer. This automatic lamination makes the prints resistant to splashes, dust, and fingerprints, and the colors do not lose their intensity for decades. Your photos can safely pass from hand to hand, find their way into albums or wallets, and retain their original quality and brilliance for years to come.

Compact form and thoughtful design

The white casing with a matte finish looks modern and is easy to keep clean. The design has been created with ease of use in mind – access to the interior is intuitive and the ventilation system ensures adequate air flow. Its compact dimensions and low weight mean that the printer can easily fit into a bag or backpack.

Mobile design created for travel

Thanks to the magnetic paper tray, which can be conveniently attached to the top of the housing during transport, the device becomes extremely compact. Despite its built-in battery, the printer weighs only about 1.4 kg, which, combined with its small size (205×124.6×85.4 mm), makes it easy to fit in a backpack or carry-on luggage.

Instant wireless connectivity in all conditions

The printer has a built-in Wi-Fi hotspot that allows you to connect directly to your smartphone without the need for a router. This allows you to print photos anywhere—in the garden, on vacation,

or during a family picnic—and share them with your loved ones right away.

Invite your loved ones to print together

The printer works with iOS, Android, PC, and Mac computers. The universal USB-C port allows for a stable wired connection, and the ability to support up to five users simultaneously means that everyone at the party can send their favorite shot to print. Creating a shared gallery of memories has never been so easy and inclusive.

Creativity at the touch of a button

The dedicated Liene Photo app opens the door to photo personalization. You can apply stylish filters, add frames, or use effects that will give your photos a unique character. What's more, ID Photo mode allows you to instantly prepare photos for documents (ID, visa) at home or in the field, combining fun with exceptional functionality.

Performance tailored to your needs

The M200 comes with everything you need to get started. The large paper tray holds 20 sheets of photo paper at a time, ensuring smooth operation without frequent refilling. Stable operation in a wide temperature range (10–35°C) ensures that the printer will not let you down, whether at home or during summer outdoor events.

Included in the set

- photo printer
- ink cartridge (1 piece)
- 4x6" photo paper (20 sheets)
- power adapter
- user manual
