Product Code: 880804

## R2,791

### IsEasy LI2V-15 unplugged induction cooktop

The IsEasy LI2V-15 is a modern 3,400-watt induction cooktop that allows you to cook anywhere on the cooking field. This allows you to use different sizes and shapes of cookware, preparing meals conveniently and efficiently. It's ideal for everyday cooking and culinary experiments.

#### Flex Zone function

The flexible cooking zone allows you to position your cookware in different positions, maintaining even heating. It will work well with small pots as well as large pans or baking pans.

#### Precise power adjustment

With 9 power levels, you can adjust the heating intensity to the type of food you are preparing. The hob also offers a Booster function, which allows you to instantly increase the power for faster

cooking.

Safe cooking

The hob is equipped with a child lock and a residual heat indicator. These features increase the safety of use by protecting against accidental start-ups or burns. In addition, a built-in ventilation system ensures efficient heat dissipation, which extends the life of the appliance and maintains its efficiency.

Built-in timer

The timer allows you to set the hob's operating time. This allows you to better control the cooking process and makes it easier to prepare multiple dishes without constant supervision.

Compatibility with induction cookware

The hob works with magnetic induction compatible cookware - iron, cast iron, enamel and stainless steel. This ensures efficient heat transfer and energy savings.
