R1,691

MEROSS MSS315CFH-EU Smart Plug with Energy Monitoring (Matter) (4-Pack)

The MEROSS MSS315CFH-EU Smart Plug is the key to full control over energy consumption in your home. The energy monitoring feature provides real-time reports and usage history, allowing you to reduce your electricity bills. Thanks to Matter support, both setup and operation of the plug are extremely simple. Advanced security features ensure the safety of your data, and multi-administrator support gives you greater freedom to choose how you want to control your devices.

Note: One of the hubs listed in the specifications is required for the device to function (not included). The package contains 4 units of the product.

Monitor energy consumption

Now you can stay informed about how much energy your devices are using. The Meross smart plug provides real-time reports on the energy consumption of connected devices. With the Meross app, you also gain unlimited access to historical data, allowing you to explore details and analyze energy consumption trends in your home. What's more, the app also allows you to measure energy generation—it's the perfect solution for monitoring energy from solar panels on your balcony.

The future of the smart home

The Meross smart plug operates based on the latest Matter standard. Thanks to this, the plug can connect to various apps, control all devices, and even connect to a variety of cloud services, including Apple Home, Amazon Alexa, SmartThings, and Google Home. This solution opens up new possibilities for you and provides flexibility in creating an integrated ecosystem in your home.

Even easier setup

Setting up the device will be a breeze. The Matter standard makes the process even easier. Just scan the QR code to activate the socket and enjoy all its features. No more wasting time on complicated setups! However, it's important to remember that you cannot activate the product without one of the voice hubs listed in the specifications. The hub plays a key role in ensuring the device's full functionality, so make sure you have all the necessary accessories before beginning setup.

Included

- Smart plug x4
- User manual
