Model: MRS105MAQUA-EU

Manufacturer: MEROSS

EAN: 6942349202025

Product Code: 881562

R2,672

Meross MRS105MA-EU Smart WiFi Roller Shade Switch (Matter)

The Meross MRS105MA-EU is a modern roller shade switch compatible with the Matter standard, enabling convenient control of up/down motors with precise percentage adjustment. Thanks to its compact design and compatibility with multiple smart home systems (including Apple HomeKit, Amazon Alexa, and Google Home), it is ideal for integrated smart home installations. The device requires a connection to a 2.4 GHz Wi-Fi network and the presence of a neutral wire.

Discreet design, easy integration

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The switch is designed for compatibility with popular 55 × 55 mm panels. It fits into 60 mm diameter and 35 mm deep boxes. It can be installed in single- or multi-channel configurations, making it easy to integrate into an existing system. It is also very easy to set up—simply scan the QR code.

Physical button

The MRS105MA-EU combines a simple and timeless design with the functionality of physical buttons. It blends into any interior, offering convenient day-to-day control of roller shades.

Automatic calibration and precise control

The device automatically detects the end positions of the roller shade, allowing for precise adjustment of its percentage position—for example, 20%, 50%, or 100%. This feature transforms a classic motor into a smart solution.

Remote operation, schedules, and voice control

The switch can be operated remotely via the internet using the Home or Meross app. You can also program the blinds to raise or lower automatically—for example, at sunrise or at a specific time. Voice command support via Siri, Google Assistant, or Amazon Alexa further enhances convenience. Note: This product is not compatible with the Tuya or Smart Life apps.

Safe and reliable operation

The product meets CE/TÜV standards and is equipped with overload protection. Thanks to its local architecture and the use of the Matter standard, every data transmission is protected by proven encryption algorithms. Note: A hub, such as the Echo Dot, HomePod mini, Google Nest Hub, or SmartThings Hub, is required to properly connect Matter devices.

Manufacturer	Meross
Model	MRS105MA-EU

Matter support Yes

Compatibility Meross app, Apple Home, Amazon Alexa, Google Home

Connectivity 2.4 GHz Wi-Fi

Automatic calibration Yes

Percentage control Yes
