

UNI-T LM120A distance meter

Model: LM120A

Manufacturer: UNI-T

EAN: 6935750512623

Product Code: 881803

R1,636

UNI-T LM120A distance meter

The UNI-T LM120A Laser Distance Meter is an advanced device designed with convenience and accuracy in mind. It offers millimeter precision measurements and a wide range of functions such as distance, area, volume measurement, as well as addition and subtraction operations for results. The LM120A is capable of storing as many as 99 groups of data and provides instant real-time display of results. Equipped with a physical level (horizontal and vertical), the meter guarantees even greater accuracy during operation. The ergonomic design ensures comfortable operation, and CE and UKCA certifications confirm the device's high quality and safe operation.

Multifunctionality for everyone

The UNI-T LM120A is not only a distance measurement - the device also supports maximum and minimum distance measurement functions, continuous measurements, and quick field and volume calculations. With the ability to store results, you can easily compare and analyze data without manual notation. The intuitive operation and easy-to-read display allow you to work smoothly in

interior design, construction, engineering inspection, factory supervision and real estate development.

Compact design and high performance

The LM120A is distinguished by its ergonomic, sturdy housing that fits securely in the hand and provides comfort even during intensive work. Built-in levelers facilitate precise alignment of the device, while instant data conversion and real-time update of results allow efficient organization of work at each stage of the project. UNI-T LM120A is an indispensable tool for all those who expect not only accuracy, but also speed and functionality from a distance meter.

Included

- distance meter
- carrying bag
- instruction manual

Manufacturer	UNI-T
Model	LM120A
Certifications	CE, UKCA
Display size	2.0 inches
Display type	LCD
Measurement range	120 m
Smallest display unit	0,001 m
Measuring units	m / ft / in
Measurement base	Front / back of the device
Accuracy	±(2 mm + 5 × 10 ⁻⁵ D)
Laser class	Class 2
Laser type	630-670 nm, 1 mW

Supported measurements	Single measurement, continuous measurement, maximum/minimum value and area measurement, volume measurement, Pythagoras function (indirect measurement)
Addition/subtraction of values	Supported
Automatic calibration	Supported
Physical level (bubble)	Supported
Memory	For 99 groups of data
Automatic shutdown of the device	After 3 minutes of inactivity
Automatic laser shutdown	after 30 seconds of inactivity
Operating temperature range	0°C ~ 40°C
Storage temperature range	-20°C ~ 60°C
Power supply	2 × 1.5 V battery (LR03)
Product color	Red, gray
Product dimensions	122 × 52 × 29.5 mm
