IsEasy LT2V-30 ceramic/electric cooktop

IsEasy LT2V-30 is the ideal solution for those who want convenience, modern design and space saving. With two powerful heating zones and intuitive knob controls, cooking becomes simpler, faster and more efficient. Its compact size and aesthetically pleasing finish make it perfect for both small kitchens and holiday homes.

Two heating zones - efficiency and versatility

The hob offers two heating zones with different wattages: 1200 W and 2000 W. This allows you to cook and heat food at the same time, adjusting the heating level to your needs. The high power ensures fast heating, saving you time in the kitchen.

Simple knob controls

The IsEasy LT2V-30 is distinguished by its intuitive control with two ergonomic dials. They allow you to precisely set the power at one of 11 available levels, allowing you to perfectly adjust the temperature to the type of food - from gentle braising to intense frying.

Safety and convenience of use

The cooktop is equipped with a residual heat indicator, which informs you when the surface is heated up, and an automatic shut-off function, which increases the safety of use. The ceramic surface is spill-resistant and easy to clean - just wipe it with a damp cloth.

Versatility of use

IsEasy LT2V-30 is compatible with a wide range of cookware, such as steel, cast iron, ceramic or enamel pots. This means you don't need to invest in new cookware - the hob will match your current equipment.

Can be mounted or used freestanding

The hob can be used both as a free-standing device, thanks to its non-slip rubber feet, and mounted in a kitchen countertop. Its compact size and easy installation make it fit perfectly into any space.
